Frank McKinney leads rescue teams into earthquake devastated Haiti.

The Earthquake hit Haiti and within 48 hours, Frank mobilized 2 jets to carry search and rescue workers to fly to Haiti. They were the first American Team to land after the military. The Caring House Project Foundation disaster relief teams arrived in Port-au-Prince, Haiti on Jan 14th and wasted no time in helping to find and treat the critically injured. The team of doctors, paramedics, and firefighters who joined Frank were specifically trained in search, rescue and extraction techniques in natural disasters.

Initially, few were cleared to fly directly into Port au Prince, the epicenter of the destruction. Frank said, "We are grateful to those who have worked so hard to make this happen."

The CHFP Team were the first American relief team to arrive and joined with other international teams in an organized relief effort. From their arrival, Frank and the team actively engaged in search and rescue, working long hours in the effort to save lives, despite feeling earthquake aftershocks. In the end Frank's team rescued four from the rubble, and delivered one baby!

"This was an unbudgeted expenditure for our foundation, yet we were called to act on God's great "tap moments" when the disaster happened.

The devastation is tragic, and it will take a long time to rebuild, but we are committed for the duration. We would appreciate your help." *Frank McKinney*

Frank & Nilsa McKinney Burst forth as winners!

Frank and Nilsa McKinney are a dynamic duo. Over the last 25 years, they have taken some of the most expensive oceanfront land on the Florida Gold Coast and created mansions fit for a king. Even Oprah Winfrey was impressed enough to feature Frank on her program. A maverick daredevil, as a teen Frank made his Mom and Dad crazy racing cars and challenging authority at school. When he married Nilsa they moved in a “fixer upper” home, remodeling it for a small profit. Over time, he mastered the field of real estate with the vision and artistry to build complex, spectacular mansions sought out by the world’s rich and famous.

I had the privilege to meet Frank when I was honored as an *Outstanding Business Leader* by *Northwood University*. He surprised me when he said, “*I have used your vitamins for over two decades. I believe they have helped me to keep my mind alert and my body in top physical shape.*” Indeed, Frank McKinney is one of the top 90 runners in the world invited to take part in the Badwater 135-mile Ultramarathon. Set in the scorching July sun of Death Valley, the run is 135 miles non-stop and must be finished in less than 60 hours. Only 60% or so of those invited finish the race. The daytime temperatures exceed 130 degrees, and the ground temps are 200+, hot enough to fry an egg on.

Frank’s good health, powerful faith and intense drive have propelled him to reach the finish line four times. This feat has been accomplished by only 42 people since 1977!

Frank is a 5-time international best-selling author. He wrote his latest 3 books at the same time. (Our Vitamins help keep his mind sharp, he said!) In his first book *Burst This! Frank McKinney’s Bubble-Proof Real Estate Strategies*, Frank shares his self-made millionaire real estate success strategies; the second book *The Tap*, teaches how divine inspiration calls each of us to a greater purpose if we will only heed the call. Frank’s third new bestseller is a delightful children’s book called *Dead Fred, Flying Lunch Boxes, and the Good Luck Circle* that is a magical fairytale wonder teaching you never to give up your dreams. The fantasy was inspired by the stories Frank told his daughter as he walked her to school more than 1,000 times in the last seven years, sometimes accompanied by 90 of her friends. Gloria Estefan called the book a modern *Wizard of Oz*.

Frank does more in one day than most of us do in a week. He starts at 4:30 AM! By the time most of us wake up, Frank has already finished an intense workout, prayed for wisdom, walked his daughter to school, spent time in his famous treehouse writing his books,

designing new homes, and preparing for his busy appearance schedule and charity work.

Frank and Nilsa are so busy they like Clientele's fast and simple skincare routine. Nilsa believes cleansing and moisturizing are most important. They like the Clientele Pumpkin Scrub and the Age Blocker with SPF 25. Nilsa likes a natural look. Her complexion is so beautiful, most days she wears only lipstick.

I'm often amazed when I meet some couples. It's as if God brought them together in this great big world because they are so complementary. This certainly is the case with Frank and Nilsa. Devoted to Frank and their daughter Laura, Nilsa is more than beautiful. She is a talented interior designer. It may be Frank who has the vision to create the architectural masterpieces, but it is Nilsa who makes sure that they are meticulously furnished.

Together, they created their latest work of art: the first certified "Green Home" of its kind - *Acqua Liana*, a \$25 million dollar oceanfront mansion that makes you feel like you are on the island of Tahiti. A massive compound, the house is so well-built using green technology, it leaves the footprint of a small home, utilizing less energy and renewable resources for much of its building materials.

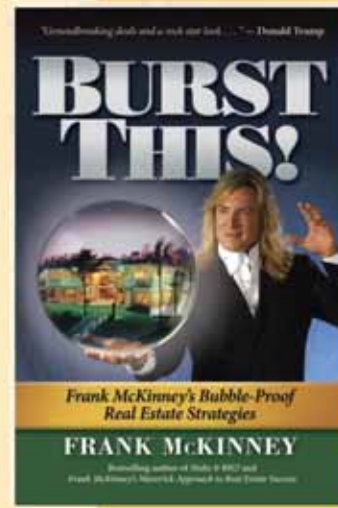

Frank was "tapped" by God when one day he realized he could use his skills as a builder to create economical shelters for the poor and homeless in Haiti. In 1998 Frank and Nilsa created *The Caring House Foundation* building entire self-sustaining villages complete with schools, orphanages, homes, medical clinics, churches, clean water and renewable food sources. Giving thousands of homeless children and their families dignity, a healthy environment and a happy life drives Frank and Nilsa to put on many charity events during the year. Frank donates the proceeds from his fabulous books and inspiring teachings.

Frank's favorite bible passage is, "from those to whom much is entrusted, much will be expected." Whether Frank and Nilsa are building a \$25 million mansion, or a homeless shelter for a family in Haiti, you can be sure they are giving it 100%. This dynamic duo has surely been "tapped" to share their wealth, creativity, and secrets to health, happiness and a blessed life with the world. Please read more about Frank's life, including the oceanfront homes he creates, the books he has written and most importantly, how you can help.

Spotlight

Lowell Amey Van Vechten

After 20 years living in Manhattan, working in publishing for magazines like BRIDES, VOGUE, and MADEMOISELLE, Lowell Amey Van Vechten started a new life a dozen years ago as a wife, new mother and full time resident of Boca Raton, Florida. "The transition was easier than I expected," she says. "The biggest challenge was adapting my skin care regime from

the drying climate of New York City winters, to the tropical, humid, sunshine-filled skin damaging environment of Florida."

"During my career I was constantly barraged with new creams and lotions to try, many of which irritated my skin more than

hydrating and moisturizing it," she says. "With a demanding travel schedule serving as a national spokeswoman for fashion and beauty magazines, I found the more I simplified my skin care regime, the happier and easier my life became."

Lowell says that her discovery of the Clientele line was her happiest beauty secret discovery ever. "What Pat Riley and her team of scientists have created is miraculous," she says. "Everything is pure, clean, non-irritating, soothing, rejuvenating and simple to use. A woman can't ask for more with the hectic lifestyles we all live today."

On weekends Lowell and her husband Jay often host fundraising celebrations in their Mediterranean style home, close to the sea. "We've raised hundreds of thousands for local and international charities doing the thing we love the most, entertaining."

Lowell knows that her Clientele products will get her through days and nights looking her best and feeling confident that she's ready to take on new challenges in her busy lifestyle.
